## EDUCATION

---

- **M.Sc. in Digital Forensics (DFIS)** 2024 -2026 (Present)  
NSIT-IFSCS, Ahmedabad (Affiliated: National Forensic Science University, Gandhinagar) Sem IV (Pursuing)
- **B.Sc. Information Technology** 2021 – 2024  
Ganpat University, Ahmedabad CGPA: 7.20

## EXPERIENCE

---

- **VAPT Intern — Web, API & Network Security** 2026 – Present  
TechDefence Labs (TechD CyberSecurity Ltd.), Ahmedabad On-Site
  - Conducted end-to-end VAPT engagements on fintech platforms, broking portals, cooperative bank websites, and internal enterprise web apps.
  - Discovered and documented critical/high vulnerabilities including SQLi, XSS, IDOR, Broken Access Control, SSRF, and security misconfigurations on live client targets.
- **Cyber Security Intern** 2025 · 2 Months  
AWL Agri Business Ltd. (Formerly Adani Wilmar Ltd.), Ahmedabad On-Site
  - Performed digital forensics investigations, endpoint security assessments, and incident triage.
  - Conducted OSINT-based threat intelligence gathering and supported SOC monitoring operations.
- **Cyber Security Intern** 3 Months  
Cyber Secured India Remote
  - Executed vulnerability assessments and delivered findings using structured reporting templates.
- **Cyber Security Intern** Mar 2025 · 1 Month  
Shadow Fox Cyber Security Remote
  - Participated in red team exercises and assisted with penetration testing engagements.
- **Cyber Security Intern** 2025 · 1 Month  
The Red User Cyber Security Remote
  - Supported offensive security testing tasks and vulnerability documentation.
- **Full-Stack Developer Intern** Jan – Feb 2024  
Brainy Beam Technologies Pvt Ltd, Ahmedabad On-Site
  - Built full-stack web applications using Python/Django; contributed to secure coding reviews.

## PERSONAL PROJECTS

---

- **Secure CipherStegno Tool**  
A Python GUI desktop security toolkit integrating cryptography and steganography — major academic dissertation project.
  - Implemented AES-256, RSA-2048, ChaCha20, and classical ciphers alongside image, audio, and video LSB steganography.
  - Published on GitHub with CI/CD via GitHub Actions; reviewed for academic security viva.
  - Technology Used: Python, Tkinter, PyCryptodome, Pillow, GitHub Actions.

## TECHNICAL SKILLS AND INTERESTS

---

**VAPT Tools:** Burp Suite Pro, Nmap, Nessus, Metasploit, OWASP ZAP, SQLmap, Nikto, Gobuster

**Assessment Areas:** Web Application, API, Network, Active Directory, Mobile (Android)

**Methodologies:** OWASP Top 10, PTES, CVSS 3.1 Scoring, CWE Classification, Bug Bounty

**Forensics Tools:** FTK Imager, Autopsy, OS Forensics, Belkasoft, Volatility

**Languages:** Python, Bash, PowerShell, JavaScript, HTML+CSS

**Platforms:** Kali Linux, Parrot OS, Windows, TryHackMe, Hack The Box

**Cloud / DB:** AWS (basics), MongoDB, MySQL, Firebase

**Dev Tools:** Git, GitHub Actions, Telegram Bot API, VS Code

**Standards:** OWASP, MITRE ATT&CK, NIST, ISO 27001 (awareness)

**Areas of Interest:** Offensive Security, VAPT, Red Teaming, Digital Forensics, CTF

**Soft Skills:** Report Writing, Problem Solving, Self-learning, Adaptability, Teamwork

## POSITIONS OF RESPONSIBILITY & ACHIEVEMENTS

---

### • CTF Competitor — Multiple Platforms

*2023 – Present*

- IIT Roorkee CTF — Team ranked 16th out of 100+ competing teams.
- AWS × SANS Capture The Flag — Ranked 200th globally.
- Bugcrowd CTF — Ranked 144th.
- TryHackMe — Ranked in Top 1% globally; active participant in Hackfinity Battle and regular boot-to-root labs on TryHackMe & Hack The Box.

## LECTURES & TALKS

---

### • Speaker — NULL Ahmedabad Chapter (NewsBytes Segment)

*Ahmedabad, 2025*

*Delivered a technical session on Top 10 Cybersecurity News Updates covering recent vulnerabilities, zero-days, major breaches, and emerging security trends.*

- Presented complex security updates as actionable insights to an audience of cybersecurity enthusiasts and professionals at the NULL community chapter.
- Networked with security professionals; first public talk marking active contribution to the open-source security community.

## CERTIFICATIONS

---

• **Certified Network Security Practitioner (CNSP)** — *SecOps Group*

• **CS50 Introduction to Cybersecurity** — *Harvard Online*

• **Security Analyst Certificate** — *Skill India & Reliance Foundation*

• **Cyber Security Analyst Job Simulation** — *Tata Group (Forage)*

• **Cyber Security Job Simulation** — *Mastercard (Forage)*

• **Student SOC Program Foundation Training** — *Microsoft*

• **Digital Forensics Masterclass (DFMC + DIFR)** — *Udemy*

• **SysTools Digital Forensic Essentials (SDFE)**

• **SysTools Incident Response Essentials (SIRE)**

• **OS Forensics Triage Certification (OSFT)**

• **Windows Forensics with Belkasoft**

• **BelkaGPT: AI in DFIR**

• **Introduction to Digital Forensics & Introduction to OSINT** — *Security Blue Team*
