PROFILE

VAPT specialist with hands-on web, API, and network penetration testing on live fintech, banking, and enterprise targets, backed by a CERT-In-acknowledged CVE. Working exposure to SOC operations — monitoring, incident triage, OSINT threat intelligence — and GRC practices including ISO 27001/NIST awareness, CIS Benchmarks, and CVSS-based risk reporting.

EXPERIENCE

VAPT Intern — Web, API & Network Security — TechDefence Labs, Ahmedabad From Jan-2026 – Present

- Conducted end-to-end VAPT engagements on fintech platforms, broking portals, cooperative bank websites, and internal enterprise web applications.
- Discovered and documented critical/high vulnerabilities — SQLi, XSS, IDOR, Broken Access Control, SSRF, and security misconfigurations — with CVSS 3.1 ratings and remediation guidance.
- Contributed to compliance-aligned deliverables including CIS Benchmark hardening checklists (Windows/RHEL) and firewall security audit reports.

Cyber Security Intern — AWL Agri Business Ltd. (formerly Adani Wilmar), Ahmedabad 2025 · 2 months

- Performed digital forensics investigations, endpoint security assessments, and incident triage; conducted OSINT threat-intelligence gathering and supported SOC monitoring operations.

Cyber Security Intern (Remote) — Cyber Secured India · ShadowFox · The Red User 2025

- Delivered vulnerability assessments, red-team exercise support, and structured penetration-testing documentation across three remote internships.

Full-Stack Developer Intern — Brainy Beam Technologies, Ahmedabad Jan – Feb 2024

- Built Python/Django web applications and contributed to secure coding reviews.

RESPONSIBLE DISCLOSURE

- CVE-2023-23752 — independently identified a critical Joomla! improper access check on a .gov.in government portal; responsibly disclosed to CERT-In (Ref: CERTIn-48344726) and acknowledged.
